

# READY OR NOT, HERE COMES CHANGE

The AI revolution has accelerated the pace of change like never before. While most agrichemical companies realize that AI creates value, many are yet to infuse its capabilities into their enterprises. Now, the pressure to evolve is on...

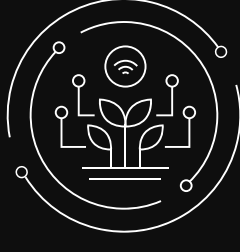

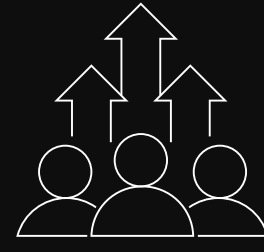

THE AGRI-CHEMICAL INDUSTRY IS SET TO REACH

**\$282.2 BILLION BY 2028**

THE POPULATION, EXPECTED TO RISE TO

**9.8 BILLION BY 2050**

AI IN THE GLOBAL AGRICULTURE AND CHEMICALS MARKETS IS EXPECTED TO REACH

**USD 8.5 BILLION BY 2031 AND**

**USD 17.06 BILLION BY 2032**

To help our industry embrace AI and enter the future, we devised the **Infosys Cobalt Agri-Chemical Cloud**. A set of AI-first ready-to-deploy services, solutions and platforms, tailored to the needs of the industry.

## CATALYZING CHANGE

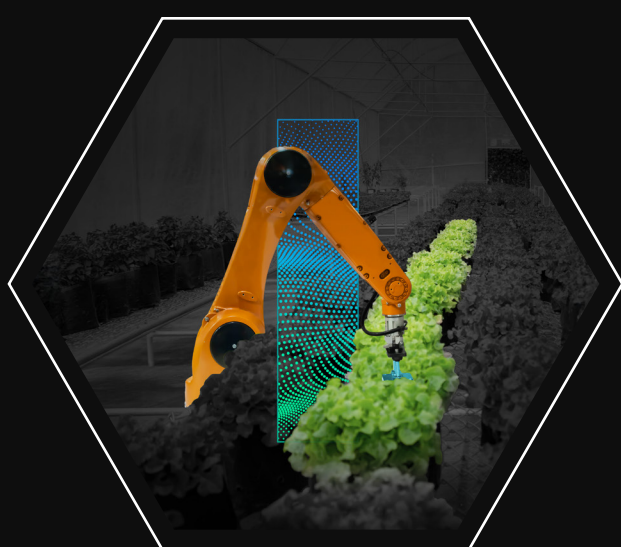

POWERING 4 MISSION-CRITICAL BUSINESS OUTCOMES

### INNOVATION

From experimentation to execution, **R&D+.AI** nurtures constant innovation and unlocks the next phase of evolution in the industry:

- Rationalizing R&D costs while improving processes and products
- Performing hypothesis testing before execution
- Predicting outcomes and empowering innovation

### AUTOMATION

From process simplification to value creation, **OPS+.AI** yields agility and greater operational efficiency with automation:

- Improving worker safety and HSE process adoption
- Enabling operational excellence
- Accelerating design and innovation cycles

### CONNECTIVITY

From sourcing to logistics and dealer management, **SCM+.AI** formulates network intelligence by connecting ecosystems on the cloud:

- Digitizing the entire supply chain
- Minimizing the time to market
- Optimizing inventory management with predictive insights

### EXPERIENCES

From employee satisfaction to customer trust, **HX+.AI** cultivates superior experiences for every stakeholder in your network:

- Improving employee productivity
- Enabling quicker resolutions of queries and issues
- Personalizing customer experiences
